EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. Major	Adani University	8.7 (Current)	2022-Present
Senior Secondary	CBSE Board	91.8%	2022
Secondary	CBSE Board	93.4%	2020

PROJECTS

• Brain Tumor detection

Self Project

Github

- **EfficientNet** to detect the presence of Brain tumor and classify them by processing MRI images (accuracy = **98 percent**).
- Libraries like Keras and **tensorflow** were used .
- **XAI model GradCAM** showed images with hues representing the areas which led to the prediction.

• Zcoder - Social Web App for Coders

Group project

Github

- Introduced **Personalised Profiles** and **Contest Calendar** feature using **React.js** to enable users to create unique coding profiles and view **upcoming contests** with participation links.
- Accomplished **Collaborative Learning** functionality for **real-time messaging** function by enabling **bi-directional communication** between client and server.
- **Key Technologies**: React.js, Node.js, Socket.IO, MongoDB, Express.js

• OS - Workload Scheduling Algorithms

Self Project

Github

- Modeled a **discrete-event** process scheduler for a general operating system using **C++** .
- Structured widely recognised scheduling algorithms such as **FCFS** and **Round Robin**.
- Computed metrics including **average turnaround time** and **response time** for each scheduling strategy.

• Travel Package Purchase Prediction

Self Project

Github

- Built a machine learning model using **Python** to predict whether a customer will purchase a travel package based on various customer features like age, city tier, income, etc.
- Implemented and trained models using algorithms like **XGBoost** and **LightGBM** to perform binary classification (Will Purchase / Not Purchase).
- Deployed a **Flask** web application to allow users to input customer data and receive predictions using **render**.

TECHNICAL SKILLS

- **Programming**: C/C++, Python, Java*
- **Data Analytics and AIML** : Tensorflow, Keras, yfinance*, Scikit-learn
- **Web Technologies** : HTML, CSS, React.js*, AWS , Flask
- **Database Management**: MySQL, MongoDB*

* Elementary proficiency

ACHIEVEMENTS

- **Published Paper**, title "AIML for Green Hydrogen cycle" in Next Energy journal as a co-author 2025
- **Department Rank 1**, Ranked 1st among girls in the CSE-division and overall 7th in the class 2024
- **CodeForces**, Maximum Rating- **924**, Title - Newbie, Profile- **Pvidhim** 2024
- **MYSY Scholarship**, Selected by **Gujarat State Government** for Scholarship based on Merit 2022
- **Woodepecker's Hackathon**, ML Model selected in **top 300** out of 12000+ registered participants 2023
- **JEE Mains**, Achieved **Top 10th percentile** out of 1 million students 2022

KEY COURSES TAKEN

- **Computer Science**: Data Structure and Algorithms, Analysis and Design of Algorithms, Database Management System, Operating System, Data Communication and Computer Networks, Agile Software Development*
- **Mathematics**: Linear Algebra, Basic Calculus, Discrete Maths, Probability & Random Processes
- **Data Science And AIML**: Python Programming, Deep Learning*, Data Visualization*, AWS Academy Machine Learning Foundation, Basics of Artificial Intelligence, Summer Analytics by IIT Guwahati
- **Cloud Computing**: AWS Academy Cloud Foundation course, AWS Academy Cloud Developing course, Distributed Computing, Cloud Computing* * Ongoing

EXTRACURRICULARS

- **Webmaster**, ACM-Women Chapter, Association for computing machinery *Apr 2023 - Present*
 - **Robotics Mentor**, Robotics and AI Club, Adani University *Feb 2024 - Present*
 - **Creative Head**, AWS CCloud Club, Adani University *Feb 2025 - Present*
 - **JPMorgan Chase & Co. Quantitative Research Virtual Experience Program**, Forage *Sep 2024*
-
